## CitriLyte ADD-IN™

Nutrients for Hydration, Heat Tolerance,  
Muscle Function, & Energy Conversion

[www.elete.com](http://www.elete.com)

# Complete electrolyte replenishment.

**elete Electrolyte Add-In™** is the original pure electrolyte concentrate without sugars, calories, or artificial ingredients. Use elete to make electrolyte water or to enhance any beverage with essential electrolytes.

**elete Electrolyte Add-In™** makes electrolyte water that tastes like water and has sports drink levels of electrolytes. It can also be used to add magnesium, potassium, and sodium to any beverage or food. **CitriLyte Add-In™** contains original elete with the benefits of zinc and citric acid.

**elete CitriLyte Add-In™** adds a light, tart flavor in any mixed drink, like a glass of water with a lemon wedge.

A little bottle of **elete Electrolyte Add-In™** weighs less than an ounce and fits in your pocket, yet makes 10–32 oz. servings/2 ½ gallons. **An 8-oz. refill bottle makes 24 gallons.**

Electrolyte water made with **elete** was clinically tested and shown to be significantly more efficient for hydration than plain water.

### Pocket Bottle Measurements

- To make 24 oz., fill the cap to the top of the threads
- To make 16 oz. of pure electrolyte water, fill the pointed tip of cap

- To make 32 oz./1 liter, fill the entire cap
- For a 100 oz./3-liter hydration pack, add 3 capfuls
